# AIR DATA TEST SYSTEM FOR PITOT PROBE

## DESCRIPTION

The ADTS542F9063, supplied with an ADTS Touch, is a small, lightweight and cost-effective portable two-channel flightline pitot static tester for "Aircraft on the Ramp" testing.
The ADTS542F9063 is also ideal for any aircraft with low pitot static demands or for light aircraft, including helicopters and propeller-driven airplanes.

## KEY FEATURES

- ADTS Touch hand terminal with WiFi and Bluetooth® wireless technology (backup cable supplied)
- Swipe–action, touch screen user interface with colour graphics and menu
- Standard icons and layouts for routine testing
- Multiple languages
- High flow proportional pressure control technology
- TERPS high accuracy pressure sensors inside
- Accessories bag supplied, ADTS Touch carry case and ADTS542F backpack options
