

> DPG8000-100

Digital Pressure Gauges

DESCRIPTION

Digital Pressure Gauges for general use, 0 to 100 psi.
Full Scale Terminal Point Accuracy : 0,25 %, enhanced value versus mechanical gauges,
4 digit display, LCD with selectable backlight, user selectable engineering units, maximum
pressure indication, stainless steel wetted parts.

KEY FEATURES

- NATO Stock Number: 6685-01-513-3579
- Clear at 9,999 psi (690 bar)
- Storage temperature: -20 to 70 ° C (-4 to 158 ° F)
- Operating Temperature: -10 to 60 ° C (14 to 140 ° F)
- Thermal effects: 0.05% per ° C (0.028% per ° F)
- Overpressure: Vca at 0-1,000: test pressure, 200%;
Breaking pressure, 800%; 0-2,000 to 0-5,000: Pressure 150%;
Breaking Pressure, 300% 0-9 999: Test pressure, 120%;
Breaking pressure, 150%
- Included: 2xAAA alkaline batteries with 1,000 hours of battery life,
1xProtective rubber shell

SIZE

6.4 (cm)
0.21 (ft)

WEIGHT

Approx. 400 g

APPLICABILITY

All aircrafts
