ANEMOBAROMETRIC CIRCUIT TEST DEVICE

DESCRIPTION

This kit contains all the equipment required to test the complete pitot and static system on the helicopter. The kit also allows pre-testing for a “No leak” configuration of all test adaptors, hoses and air data test set prior to connecting to the helicopter.

Device to test the anemobarometric circuit with pressure generator.

Including: piping and anemobarometric adaptors for pitot and static ports.

KEY FEATURES
