

# > ML-3500M

## Light, ultraviolet, metals examining

### DESCRIPTION

These ultra-high intensity UV lamps feature micro discharge light (MDL) technology to make all inspections easier, safer and more reliable. They are available in three line-voltage models: ML-3500S, with a spot bulb; ML-3500D, with a spot bulb and a diffusing filter; and ML-3500FL, with a flood bulb for a wider range.

### KEY FEATURES

- NATO Stock Number: 6635-01-489-5587
- Powerful, ultrahigh intensity 35-watt MDL bulb/reflector with 2,000-hour service life.
- Lightweight, solid-state ballast
- Five interchangeable, twist-lock forensic filters provide maximum range of individual spectrums for enhanced detection and inspection of forensic samples.
- Compact, 12VDC, 7 amp/hr rechargeable battery provides two full hours of operation

### SIZE

26 x 35 x 53 (cm)  
10.2 x 13.7 x 20.8 (in)

### WEIGHT

10 (kg)  
22 (lbs)

### APPLICABILITY

All aircrafts
