

> 015-PLUS-XG45

INCLINOMETER CLINOTRONIC PLUS

DESCRIPTION

The Clinotronic PLUS provides a measuring capacity of ± 45 degree (upon requirement delivery is also possible with a measuring range of ± 10 , ± 30 or ± 60 degrees). Four precisely machined surfaces assure accuracy and repeatability of measurements. Selectable by push-button, any units suitable for inclination may be applied to the display. Even slope indication based on a relative base of selectable length is possible. Simple push-button operation automatically sets absolute as well as relative zero. The interface sockets (RS 485) provided, will connect to a variety of other WYLER instruments like e.g. LEVELMETER 2000, T/C directly to a PC.

KEY FEATURES

NATO Stock Number : 4920-37-518-5030

- Operating temperature : + 0 ... + 40 °C
- Storage temperature (DIN 2276/2) :- 30 ... + 70 °C
- Measuring range : $\pm 45^\circ$

SIZE

L x W x H
100 x 75 x 30 mm

WEIGHT

0,4 [kg]

APPLICABILITY

H160
